## About

My name is Aldo Solano and I'm an experienced Full Stack Web Developer and Data Analyst from Mexico City. Educated at Tecnológico de Monterrey Full Stack Flex Program, I also have a Bachelor's Degree in Computer Science at Universidad Veracruzana. Creativity, organization, patience and curiosity are my strongest intrinsic skills. My technical skills include the development and design of MERN Web Apps, C#, Java and SQL Server; that combined with my experience in collaborative, deadline-driven environments make me a strong addition to any Full Stack Web Development team. I'm also a senior DBA with 8+ years of solid experience working with Data Analysis, Data Mining and Business Intelligence Technologies.

## Experience

### Full Stack Web Developer

Freelance

May 2018 - Present

My activities include the development of MERN Web Apps using React + Redux, jQuery, Bootstrap CDN, React Bootstrap, CSS3, HTML5 for the User Interface design; React Browser Router for routing and blocking private URL's; Firebase for authentication and file storage; Ajax and Axios for API consumption; Express for server configuration and routing; MySQL + Sequelize and MongoDB + Mongoose for Databases; Node for API development and backend logic; Webpack and Babel configuration; package management with NPM; Heroku and GitHub Pages for deployment; the software I use include Visual Studio Code for coding, Inkscape + Gimp for graphic design, Postman for route testing, GitHub Desktop as GitHub Client, Gitbash as a Command-line interface, MySQL Workbench and Robo 3T for Databases, and others.

### Data Analyst

IT Manager

Despacho Freyssinier México, S.C.

January 2010 - Presente

## Education
